

## **16th August 2016: Notification to Residents – Maintenance Works and Associated Traffic Movements**

Please note Gullen Range Wind Farm is carrying out maintenance works involving cranes between Monday, 16th August and Friday, 30th September.

The works will require a number of traffic movements on local roads. The traffic movements associated with the works are outlined below, however, please note that dates are indicative only. Please refer to [www.gullenrangewindfarm.com](http://www.gullenrangewindfarm.com) for up to date information.

- Movement of mobile cranes from the Hume Highway to the Bannister area of the site via Crookwell and Kialla Road. This will consist of 15-20 large loads and is expected between 19th and 23rd August.
- Movement of mobile cranes from Bannister to Pomeroy. The date for this movement has not been fixed.
- Potential delivery of three wind turbine blades in early September. Further notice will be provided regarding these movements over the next two weeks.
- General increase in light vehicle movement during the period of works.

We aim to minimise disruption to local traffic and maximise safety to all road users during these works. We apologise for any inconvenience caused. Any oversized loads will avoid travelling between 7.30am and 9am on local roads wherever possible.

Further updates on the delivery schedule will be made on the GRWF website: [www.gullenrangewindfarm.com](http://www.gullenrangewindfarm.com). For further information, please call 1800 509 711 or email [info@gullenrangewindfarm.com](mailto:info@gullenrangewindfarm.com).
